comes in another feature of the enterprise. Mr. Bennemant recognises the fact that it could not be obtained in Canada; and he proposes therefore to import the skilled labor necessary for the work. For the last twenty five years he has carried on the culture in France, in the ancient Province of Bretagne; and to day he is working an estate of a thousand acres, which is being worked by foremen and laborers whom he has rained. "I can go to these good people, says Mr. Bonnemant, "and tell them here in the Morbihan I can offer you only slender salaries; all your workdays added together do not give you more than 500 francs (\$100) a year; now you know me, you have entire idence in me, come with me to Canada. it is a good country. I assure a salary of 1,250 francs (\$250) for the men, and of 750 france (\$150) for the women. I guarantee that the price of food is not higher than in France, and to change no hing in your habits I will furnish you with bread, pork and clothing at cost price, having no intention of s.eculating on you You will be lodged in tarm bouses, similar to your own, you will find there your language, your religion, in a word a second Fa herland; do you think i would be difficult for me to find in my Bre-tagne, with its population of 2,500 000 luhab-itants, the 150 individuals which I need?"
This then is the enterprise which the govern-ment and legislature of Quebec are now pe titioned to aid. It includes the establish-ment of a large industry bitherto unknown in Carada, the creation of an immense mode arm, with the most improved system of cu ture; and the importation of skilled agricultural laborers to carry it on, an importation large immigration of in'e endent laborers from the same districts. Thus the three ele ments of prosperity to which the attention of the best thinkers in the Province of Quebec is directed are included in the enterprise: Agri-culture, manufic tree, immigration. We fancy that no enterprise has ever appealed or public sympathy and support with a higher claim than this one. And we sincere'y hep. berefore, that the Legislature will assent to a measure, affording it such assistance as and induce capitalists to venture upon its establishment on a scale commensurate with the requirements of success," New Advertisements. |Before A. F. Pemberton, Esq.]

FRIDAY, Jan. 3, 1873. James Wright, on remand from the 2ud of December last, charged with supplying intoxicating liquor to Indians, was found pully and ordered to pay a fine of \$250, to be levied by distress; in default to suffer six

Sundry cases of default in payment of road taxes were dealt with in the usual manner. The costs, as before remarked, amount to more than the actual tax.

peculiar custom in regard to elections. We find by the last official Gazette of that Provin a to hand, that the returning officer of Victoria district, Mr. Pemberton, makes a statement "in compliance with section 21 of the Corrupt Practice at Elections Act of 1871" of the detailed list of expenses incurred by each candidate at the elections for the House of Commons, for his district. We give below the statement of each candidate. Mr. Nathan's expenses are put as follows: Copying list of voters, \$42,50; stationary, \$14; meetingroom and expenses, \$7,50; scrutineers and check clerks, \$131; horse bire, \$10; printing \$130,50 ; agents' charges, \$500. Total, \$885, which, on computation of the number of voters who cast their suffrages for this gen-tleman shows that by his own admission, Mr. Nathan's popularity may be computed at \$2,-25 per vote, or probably, in reality, at \$6, per head. The return of Mr. DeCesmos' agent shows as follows :- Copying, \$,25, carriage hire \$31,50, agent's fee \$50, total \$83,85,-a real sum of \$33,75 for expenses, or a popularity at the rate of 81 cents per head. This shows conclusively that our correspondent was right in estimating Mr. DeCosmos as the really popular man of the Victoria members, It would be an interesting study to compute a similiar statement for every constituency of Ontario. Were such a law in force in this
